Select Your Nib

A Fine, Broad, Stub, Flexible or Stiff nib may be selected at a glance. With the colour to guide you there can be no mistake.

Try Waterman's New Number Seven \$700

Which is your Colour?

RED—STANDARD—suits most writers. A splendid correspondence nib. Medium flexibility. For home and general use. GREEN - RIGID - tempered to armour-plate hardness. Will not shade even unfor heavy pressure. Unequalled for manifolding. The Salesman's friend.

PURPLE - STIFF, FINE - writes without pressure. Makes a thin, clean line and small figures with unerring accuracy. Popular with

PINK—FLEXIBLE, FINE—as re-silient as a watch spring. Fine, tempered point, ground fine to shade at any angle. Preferred by Stenographers.

BLUE — BLUNT — an improved stub nib. Makes a broad line. May be held in any position. The choice of rapid writers.

YELLOW—ROUNDED—a different nib. The point is ball shape. Makes a heavy characteristic line without pressure.

By Colour! You can now select-with confidence—exactly the nib best suited to your style of writing. The Colour signifies the kind

Guaranteed since 1883 and until 1983—one hundred years of pen service.

## DOROTHY DIX

And if he has these qualities, say "YES." He will make the kind of husband that will keep a woman thanking God for her luck until her Golden Wedding Day.

EVER let your supply of ENO's sure you have a supply at home, at your office, in your locker at the club. The rentar use of ENO means inner deadlines and inner cleanlines mean HEALTH. It acts very much as fruit acts—possessing, in fact, many of its bendical and refreshing qualities in a conventional and concentrated form.

# It Gives Us Pleasure

to extend to the Delegates of the Labor Convention a very hearty welcome to the City of Edmonton!

> The Only Large Union Shop in Western Canada

LET IT BE KNOWN, WHEREVER YOU EAT, AT HOME OR ELSEWHERE, THAT McGAVIN'S BREAD IS UNION - MADE AND CLEAN . . .

# McGavin Quality Is Supreme

FOR TWO REASONS

The First

Everything that can be obtained in the way of modern baking machinery has been installed in our plant. This machinery guarantees purity and cleanliness in the manufacture of our products and the Wax Paper Wrapper that encloses every loaf and freshness until it is delivered.

The Second

Modern machinery alone cannot produce good Bread, but when your baker assists this machinery by the careful selection of the ingredients that go into each loaf, the result must be a good product. At our bakery only the purest ingredients obtainable are used, and these only after they have been carefully tested.

We would appreciate a visit to our plant at any time, and will take pleasure in showing you just how a really good loaf of Bread
